TruDefinition® Duration® Designer Colors Collection Shingles

2022 SHINGLE COLOR OF THE YEAR

BOURBON

*Layered hues
embody
warmth
and sophistication*

Chilled blues mingle with toasty notes of gold in our signature Bourbon color blend. Layered hues entice the eye with soothing shades of sea and sky against the earthy warmth of caramel, leather and chocolate. The full-bodied depth of this color mix gives Bourbon its greatest strengths—versatility and an enduringly beautiful finish. All TruDefinition® Duration® Designer Colors Collection shingles come with the advanced performance of patented SureNail® Technology, tough enough to weather the elements, year round.

After Bourbon†

Before

Premium performance. Lasting style.

SureNail® Technology

There's a line between a good shingle and a great shingle.*

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology, only from Owens Corning.

For more information and to watch our videos on SureNail® Technology, go to www.owenscorning.com/surenail.

Excellent Adhesive Power
Helps keep the shingle layers laminated.

Outstanding Grip
The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®** sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design
Patented SureNail® Technology†† is the first and only reinforced nailing zone on the face of the shingle.

"No Guess" Wide Nailing Zone
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see, strong, durable fastener zone.

Triple Layer Protection®††
A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

Double the Common Bond
SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

THE PROOF IS IN THE PERFORMANCE

Up to **2.5X** BETTER NAIL PULL-THROUGH RESISTANCE

Up to **9X** BETTER NAIL BLOW-THROUGH RESISTANCE

Up to **2X** BETTER DELAMINATION RESISTANCE

TOTAL PROTECTION SIMPLIFIED™

It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to perform in three critical areas. The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof.

Owens Corning® Hip & Ridge Shingles

Owens Corning® Hip & Ridge shingles are uniquely color matched to the TruDefinition® Duration® Designer Colors Collection Shingles. The multiple color blends are only available from Owens Corning Roofing and offer a finished look for your roof.

Blended

Traditional

* See actual warranty for complete details, limitations and requirements.

‡ 40-Year Limited Warranty on commercial projects.

** Tru-Bond is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing® and Asphalt, LLC.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

†† The amount of Triple Layer Protection® may vary on a shingle-to-shingle basis. For patent information, please visit www.owenscorning.com/patents.

SureNail® Technology is not a guarantee of performance in all weather conditions. SureNail® Technology is available only on Owens Corning Duration® Series Shingles.

††† Owens Corning testing when following the manufacturer's installation instructions and nailed through the middle of the allowable nail zone.

§ Applies for all areas that recognize a Miami-Dade Notice of Acceptance (NOA).

International Code Council Evaluation Services Acceptance Criteria for Alternative Asphalt Shingles.

^ Excludes non-Owens Corning® roofing products such as flashing, fasteners and wood decking.
